

MSC IN QUANTUM TECHNOLOGIES BY RESEARCH

**THE TECH FUTURE
IS HERE!!**

**Gold medal for
each batch's
RANK HOLDER**

ELIGIBILITY

B.Sc./M.Sc. in Science subjects/B.Tech/B.E. with 60% marks or CGPA 6.5 and Mathematics as a main or subsidiary subject studied 1 year during the qualifying degree.

What Sets Our Students Up for Success

- Practical Industry-ready Curriculum
- Access to Modern Laboratories
- Placement Assistance with Top Tech Firms
- Advanced training in Quantum and Photonics

Apply Here : <https://espro.christuniversity.in/Application>

For detailed information related to the admission process, please get in touch with us or visit our website.

- Mission: International hub supporting India's National Quantum Mission.
- Core Focus: Quantum Technologies, Photonics, Semiconductors, and Complex Systems.
- Global Ties: Partnered with CADFEM/Ansys, qutools GmbH (Germany), and others.
- Career Prospects: ₹7–10 LPA in Quantum/Photonics/Semiconductor/IT (Roles: Scientist, Developer, Consultant).
- Training: Blends strong theory with intensive, mentored research.

**Accepting Applications
for 2026-2028**
