

THE TECH FUTURE IS HERE!!!

MSC IN QUANTUM TECHNOLOGIES BY RESEARCH

Programme Overview :

- ➡ International research hub for Quantum and Photonics supporting India's National Quantum Mission.
- ➡ Focus on quantum computing, photonics, semiconductors & quantum-safe technologies.
- ➡ Global collaborations with qutools GmbH (Germany), CADFEM India & others.
- ➡ Designed for PhD pathways, research & deep-tech careers in a \$100B+ global quantum market (by 2040).
- ➡ Placement Potential: ₹7-10 LPA | Roles: Research Scientist, Quantum Developer, Consultant | Sectors: Quantum, IT.
- ➡ Strong theoretical foundation + intensive mentored research training.

ELIGIBILITY

B.Sc./M.Sc. in Science subjects/B.Tech/B.E. with 60% marks or CGPA 6.5; 1 year of Mathematics studied.

Gold medal for each batch's RANK HOLDER

What Distinguishes This Programme?

- ★ Research-centric curriculum.
- ★ Hands-on practical lab experience.
- ★ Advanced training in Quantum & Photonics.
