

CRAFT YOUR CAREER WITH A WORLD-CLASS ACADEMIC & RESEARCH CENTRE

CENTRE FOR QUANTUM TECHNOLOGIES AND COMPLEX SYSTEMS (CQTCS) | SCHOOL OF SCIENCES | CHRIST (DEEMED TO BE UNIVERSITY), BANGALORE

The **Centre for Quantum Technologies and Complex Systems (CQTCS)** is a newly established interdisciplinary research centre within the School of Sciences, CHRIST University, Bangalore. CQTCS aspires to become an **internationally recognized, world-leading research hub** dedicated to **advancing fundamental and applied research** in:

- Quantum Science and Technologies
- Photonics
- Quantum Fluids
- Quantum Condensed Matter
- Semiconductor Technologies
- Complex Systems

We invite **accomplished, passionate, and forward-thinking academicians** to join our dynamic faculty team as:

- **Assistant Professor (Group Leader)**
- **Adjunct Professor**

WHY JOIN CQTCS, CHRIST UNIVERSITY?

- **Competitive Compensation**
 - Salary as per UGC norms.
- **Research Support & Funding**
 - Research seed grants for initial laboratory and group establishment.
 - Support for Ph.D. scholars and Postdoctoral researchers.
 - Assistance for patent filing, funded projects, and high-impact publications.
- **Professional Development**
 - Annual allowance for international conferences, training programs, and research collaborations.
- **Innovation & Entrepreneurship**
 - Dedicated Technology Transfer Cell.
 - Support for start-ups and spin-off companies.
 - Opportunities for industry consultancy and collaborative projects.

HOW TO APPLY?

Interested candidates are requested to complete the online application form:

Apply Online: <https://espro.christuniversity.in/Careers/>

In the online application, select subjects as 'Quantum Technologies and Complex Systems', preferred campuses as 'Kengeri', and post applied for as 'Teaching'.

For queries, please contact Coordinator, CQTCS, Email: coordinator.cqtcs@christuniversity.in

FACULTY POSITIONS & ELIGIBILITY

ASSISTANT PROFESSOR (GROUP LEADER)

Eligibility Criteria

- Ph.D. from **premier national institutions** (Institutes of National Importance – Research Institutes, IISc, IITs, NITs, etc., Central Universities, and other top NIRF ranked Institutions) **or top QS-ranked international universities**.
- Strong research credentials with **high-quality publications** and a clear commitment to **teaching excellence**.
- Minimum three years of postdoctoral/industrial experience with **at least five Q1 journal publications** relevant to the proposed research domain. Review articles are not counted unless published in top journals of the specific field.

Preferred Specializations

EXPERIMENTAL DOMAINS

- Superconducting Thin Films
- Superconducting Josephson Junctions
- Superconducting Qubits
- Quantum Condensed Matter
- Quantum Magnetism
- Ultra-Cold Quantum Technologies

THEORETICAL DOMAINS

- Quantum Computing
- Quantum Networks
- Quantum Machine Learning
- Quantum Photonics
- Quantum Cryptography and Communication
- Quantum Condensed Matter Physics
- Quantum Biology
- Quantum Chemistry
- Complex Systems

ADJUNCT PROFESSOR

Eligibility Criteria

- **Retired eminent professors** from Institutes of National Importance or Universities.
- Minimum of three **external research grants** and **ten Q1 journal publications**.
- **Fellows of national or international academies** will be given higher preference.

Adjunct Professors are temporary members and will be compensated only for the duration of their stay at the Centre.

JOIN CENTRE FOR QUANTUM TECHNOLOGIES AND COMPLEX SYSTEMS (CQTCS)

Be a part of a vibrant academic ecosystem committed to cutting-edge research, innovation, and transformative education in quantum science and complex systems.

CQTCS WELCOMES YOU TO SHAPE THE FUTURE OF THE EMERGING TECHNOLOGY
