PROGRAMME OVERVIEW

- Two-year (4-semester) research-intensive postgraduate programme.
- Aligned with India's National Quantum Mission (NQM) and global industry needs.
- Strong research-driven curriculum from Semester 1.
- Combines rigorous coursework with hands-on research in quantum, photonics & semiconductor domains.

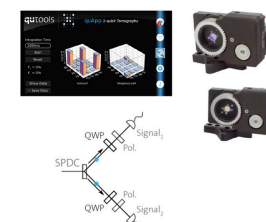

HANDS-ON RESEARCH EXPERIENCE

Single Photon
Experiment Setup

Experiments on
Quantum Key
Distribution (QKD)

Quantum State
Tomography
Experiments
